Uponor First to Offer Lead-free Brass Fire Sprinkler Adapter for Multipurpose Systems

Easier to install and more cost-effective compared with traditional stainless-steel fire sprinkler adapters, the ProPEX® Lead-free* Brass Fire Sprinkler Adapter from Uponor is an industry-first. Made of lead-free brass to effectively meet state lead-level legislation and conform to NSF Annex G for lead-free plumbing requirements, the new adapter provides easier installation on a variety of mounting surfaces.

The new ProPEX® Lead-free Brass Fire Sprinkler Adapter from Uponor is a more cost-effective alternative to stainless-steel adapters and provides easier installation on a variety of mounting surfaces.

“The new ProPEX Lead-free Brass Fire Sprinkler Adapter offers installers flexible pre-assembly and mounting options with no blocking required,” says Jayson Drake, senior product manager, Plumbing and Fire Safety, at Uponor.

Available in ¾" and 1" tees, each assembly requires a mounting bracket and a push-on locking nut (sold separately). The adapter also features Uponor's proven, cold-expansion ProPEX fitting system for strong, durable and reliable connections without the need for torches, glues, solvents or gauges.

**Per NSF Annex G, lead-free products contain no more than 0.25% weighted average lead content on wetted surfaces.*

Uponor, Inc. is a leading supplier of plumbing, fire safety and radiant heating and cooling systems for the residential and commercial building markets in the United States. Uponor, Inc. employs 380 people at its North American headquarters in Apple Valley, Minn. For more information, visit www.uponor-usa.com or call (800) 321-4739.
